OKI

Accessories

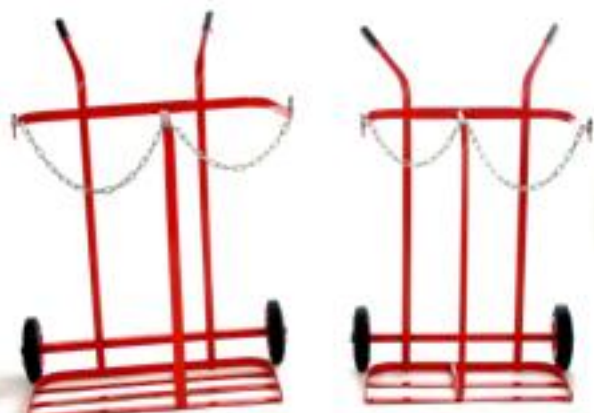

WELDSPARES-OKI is an affiliate of the OKI Bering group of companies, the world's leading independent wholesale supplier of welding, safety and related industrial products.

Contact Us to find out more about the WELDSPARES-OKI product range.

As well as a wide range of gas cutting equipment such as regulators and torches, **SWP** (Specialized Welding Products) also offer welding accessories such as electrode holders, earth clamps, cylinder trolleys, anti spatter spray and welding tungstens.

Anti-spatter-spray, silicone and solvent-free
Anti-spatter protection agent, silicone-free especially for robotic applications
Super-pistol-Spray, silicone-free
Düsofix, Anti-spatter protection paste

Cleaning felt, for steel and aluminium wires

BTC-15 coolant, for all liquid-cooled welding and cutting equipment, frost-resistant up to minus 15C°

MIG- and TIG-Handy-Support (FIX), support device for torches

Special-cleaning pincers (FIX), for gas nozzle cleaning

Special spanner, for current nozzles, nozzle connection, electrode replacement etc..

Accessories case

Tungsten electrodes, according to DIN/EN 26 848

Accessories

Accessories

MUREX welding accessories range includes :-

- Electrode Holders
- Welding Cable
- Connectors & Lugs
- Earth Clamps
- Anti-spatter & Chemical Sundries
- Spark lighters

and more...

Accessories

BERNARD's Manual Welding Accessories provide high quality with a wide range of styles, sizes and capacities to enhance your welding applications.

Short Stubs

- Electrode can be used to within one inch of the Short Stub's head.
- Built to last with a proven high-impact, high-heat separate and easy to install replacement head.
- Designed to greatly improve productivity with quick and easy installation of electrodes. Eliminating total replacement.

Cable Connectors

- Heavy-duty ball-point set screw cable connection.
- Fully insulated covers for maximum safety.
- Interchangeable with most popular models.
- Connector locking screw designed for longer life and superior electrical connection.

Positive Lock Terminal Lugs

- Lug Screw designed for enhanced field reparability.
- Composite Copper Alloys for superior conductivity.
- Increased cable depth for better connections.
- Fully insulated covers are heat, oil & abrasion resistant.

Solder Type Lugs

Hammer-on Cable Lugs

Splicers

and more...

Accessories

TWECO has been the leading maker of MIG and manual arc welding and air-carbon arc gouging products since 1936.

TWECO products and processes include MIG, manual arc welding, robotic arc welding, air carbon arc gouging and underwater welding products including torches, outfits, electrode holders, ground clamps, accessories, consumables, contact tips, nozzles, diffusers, conductor tubes, wire conduit, cutting rods, electrodes and welding chemicals.

"The Leading Authority in Welding Distribution since 1995"
